Your next steps

Quote from Palmetto Solar

Select **Palmetto Solar** to install your system. You'll work with them to finalize system and contract details. After you've confirmed, we'll let all installers know of your decision.

Send a message

Ask the installer questions or request quote updates using the Message Center, which keeps your email address private. We'll email you when the installer replies.

Schedule a call

The installer's scheduling system may ask for your email or phone number to contact you directly. If you prefer, you can schedule using the Message Center.

Request site visit

Use the Message Center to schedule a time for the installer to look at your property and discuss options in person.

Request changes

Ask the installer to provide an update to your quote based on your preferences for financing, equipment, and more.

*EnergySage calculates the values above based on: values provided by the installer for this quote, the electric bill information you provided, historical market utility rate data, an energy cost inflation estimate of 2.3% (source: EIA 10-year MD avg.), Federal ITC (Investment Tax Credit) of 30% of net cost for purchases, and carbon conversion factors provided by the US EPA (Environmental Protection Agency). Cash Purchase savings projections are also based on estimates of future SREC (Solar Renewable Energy Certificates) value. Learn more about SRECs. Check with your utility about rates and fees that may apply to your solar installation. MD SREC estimates represent a conservative estimate based on market projections over the next 15 years.

Make an impact.

It's never been easier.

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all.
